Exhibition runs  
8th March - 21st April

This exhibition is a selection of the artworks produced by adult patients attending Tallaght hospital over the last six months. In-patients from Maguire, Webb and Ruttle ward and patients from the Oncology Day Ward will exhibit their artwork. The works represent a valuable, positive and creative engagement in contrast to the sometimes adverse encounters often experienced within the hospital environment.

These patients artworks are exhibited in conjunction with an original video artwork by Artist Deirdre Glenfield entitled 'The Waiting Room'.

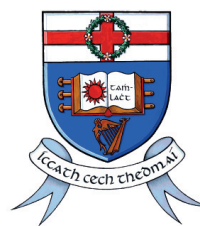

This piece explores the tensions experienced by patients in the waiting room when faced with life changing health implications. Deirdre is Artist in Residence at Tallaght Hospital and facilitated the art sessions in which these exhibition works were created.

This project is kindly sponsored by
